

FCPA Anti-Corruption Compliance Workshop

Compliance Under Several Country's Anti-Corruption Laws The American FCPA plus Australian, UK, and Cambodia laws.

This program is designed for the entire business community, not just Americans. Be aware of the issues around the key anti-corruption laws that apply to all of us doing business in Cambodia and the region. Learn how knowing the anti-corruption laws can give you a competitive advantage while doing business in Asia. Enjoy a morning with experts learning what should be included in a compliance program. Were you aware that not having a compliance program, can, in itself, be a violation of some of the laws? The four pillars of a compliance program will be explained.
